

Bible Study Tools – Bible Maps

Bible Study Tools activities are designed to give students practice in basic Bible study skills: the use of Bible maps, cross-reference systems, concordances and lexicons.

Bible Maps

Most Bibles come with a set of maps, but how often are they used? They are tucked away, usually at the back of the Bible where they are easily missed. Yet Bible maps are full of things waiting to be discovered. This activity is designed to help students discover how maps can enrich their understanding of the Bible.

2 Samuel 2:1 –

2 – Locate these places on the map.

3 – Estimate the distance that David and his men traveled as they tried to stay a step ahead of Saul. How long would it take you to walk this far?

4 – What was the terrain like in the places where David stayed? Look at a topographical map. Also look for clues in the Bible passages.

5 – What difficulties would you face if you had to be constantly on the run like this?
